

A+
Essential Vitamin A Serum
1.0oz | 30ml

ABOUT THIS PRODUCT

An advanced night serum combining key anti-ageing ingredient, Vitamin A (stabilised retinol) with the powerful antioxidant, Lycopene. This formula is active and penetrative, addressing skin concerns without the irritation.

BENEFITS:

- Restores dermal thickness.
- Reduces visible sun/UV damage.
- Promotes the formation of healthy blood vessels.
- Restores the epidermal barrier.
- Normalizes oil levels & aids in the acne control.
- Reduces fine lines through collagen stimulation.
- Reduces skin hyperpigmentation.
- Protects skin against environmental damage & aging.

STABILIZED RETINOL

Rovisome™ is a highly stable and deeply penetrative form of Vitamin A. Over 2250 international units of pure stabilised retinol are delivered per gram of Synergie Practitioner A+ serum.

Unlike Rovisome™, standard retinol and retinaldehyde used in many other Vitamin A formulas exhibit instability when exposed to heat and air, rendering the product less active within weeks of use. In vivo clinical studies of Rovisome™ have shown a 14% reduction in visible wrinkles after 28 days of application.

LYCOPENE: TOMATO SKIN EXTRACT

Topical antioxidants are essential for skin health and help to protect against environmental damage and ageing.

The potent antioxidant, Lycopene is naturally-derived from the skin of tomatoes. Its antioxidant properties are twice that of beta-carotene and ten-fold higher than alpha-tocopherol (vitamin E).

Recent studies showed that Lycopene has protective effects on fibroblasts cell lines exposed to UVA radiation. Other trials showed the marked protective effect of topically applied Lycopene containing cream on UVB exposed skin. Tests on healthy volunteers proved that a 10-week lycopene rich diet caused a 40% reduction of the minimal erythemic dose causing sunburn compared with the control group.

DIRECTION FOR USE:

Apply one pump every evening to face and neck prior to moisturising.

* Not recommended for individuals who are pregnant or lactating. Do not combine with Pure C crystals or Exfol-X serum.

KEY INGREDIENTS

ACTION

Rovisome™

- Highly stable and deeply penetrative. Over 10,000 international unit of pure stabilised retinol are delivered per pump of Synergie A+ serum.
- In vivo clinical studies have shown a 14% reduction in visible wrinkle after 28 days of application of Rovisome™, stabilised retinol.

Lycopene (tomato skin extract)

- Helps to protect skin against environmental damage and ageing.
- A potent, topical antioxidant essential for skin health.
- Protective effects on fibroblasts cell lines exposed to UVA radiation.
- Reduction of the minimal erythemic dose causing sunburn.

INGREDIENT : DISTILLED WATER, GLYCERIN, ALCOHOL (GRAIN DERIVED), METHYLPROPANEDIOL, CAPRYLYL GLYCOL, PHENYLPROPANOL, SORBITOL, HYDROLYZED TOMATO SKIN, RETINOL, PENTYLENE GLYCOL, LECITHIN, HYDROLYZED WHEAT PROTEIN, HYDROLYZED WHITE STARCH, BETAINE, POLYSORBATE 85, PHOSPHOLIPIDS, CARBOMER, SODIUM HYDROXIDE, CYMBOPOGON MARTINI (PALMAROSA) OIL.
