

D-Congest Serum
Blemish Control Serum
 0.34oz | 10ml

ABOUT THIS PRODUCT

Synergie D-Congest with added Affipore™ and Mandelic acid, is able to address all contributing factors in one formulation and reduce the appearance of acne caused by excess sebum secretion, bacteria infection and inflammation.

BENEFITS:

- Reduce pore diameter, pore volume & oil secretion.
- Mildly exfoliates.
- Contains effective antibacterial agents.
- Regulates oil while providing hydration.
- Reduce inflammation.
- Removes dead skin cells debris out of congested skin follicles.
- Calm acne lesions and skin irritation.
- Help target and reduces P.acnes bacteria.

DIRECTION FOR USE:

Apply sparingly to affected areas. May be used in the morning and evening prior to moisturising. If using in the morning, follow with UberZinc for broad spectrum sun protection.

KEY INGREDIENTS

ACTION

Affipore™	- Is a plant based ingredient that directly acts on sebocyte (oil producing) stem cells to reduce excess oil and enlarged pores. Affipore is clinically proven to reduce pore diameter, pore volume and oil secretion.
Potassium Azeloyl Diglycinate	- Is a regulator of oil that provides hydration and reduces inflammation that can cause pigmented scars.
Mandelic Acid	- An AHA which effectively addresses a range of conditions including hyperpigmentation, acne and wrinkles. Mandelic acid acts as both a mild exfoliant and as an antibacterial agent and is well tolerated by nearly all skin types. Its antibacterial and sebum regulating properties prove helpful in the treatment of acne.
Lactic Acid	- A natural and biocompatible AHA for effective removal of dead skin cells that is responsible for skin congestion. It also improves skin hydration levels.
Manuka Essential Oil	- Derived from the Manuka tree, Manuka oil has been used for centuries in Maori tribes for wound healing. It is up to 33 times more potent than tea tree oil as an antibacterial agent, reducing the P. acnes bacteria associated with acne.
Salicylic acid	- A BHA and essentially a 'bottle brush' for the pores, it is able to draw oil and cell debris out of the congested skin follicles.
Aloe vera	- Helps calm acne lesions and skin irritation.
Lemongrass essential oil	- Helps target and reduces P.acnes bacteria.

INGREDIENT : DISTILLED WATER, LACTIC ACID, ALCOHOL (GRAIN DERIVED), SODIUM HYDROXIDE, SALICYLIC ACID, MANDELIC ACID, POTASSIUM AZELOYL DIGLYCINATE, DISTILLED WATER, GLYCERIN, POLYSORBATE 85, MALIC ACID, CITRIC ACID, SODIUM PCA, DISTILLED WATER, ALOE BARBADENSIS (ALOE VERA) LEAF JUICE, PANTHENOL (PROVITAMIN B5), BAROSMA BETULINA LEAF EXTRACT, BUTYLEN GLYCOL, BISABOLOL, XANTHAN GUM, LAVENDULA ANGUSTIFOLIA (LAVENDER) OIL, POTASSIUM SORBATE, ROSMARINUS OFFICINALIS (ROSEMARY) LEAF OIL, LEPTOSPERMUM SCOPARIUM (MANUKA OIL), NATURAL COLOUR.
