

HydroPeptide Somnifera Root Mist

Indoor Light Pollution Shield

Anti-Wrinkle + Detox

What it is: A hydrating, soothing and pollution-blocking skin mist.

- Helps to protect against “blue light” and pollution
- Hydrates and locks in moisture
- Soothes and smooths

What makes it unique/Why we love it:

This refreshing mist is enriched with Somnifera Root Extract, which powerfully protects against damaging blue light and atmospheric pollution. Formulated with HydrO18™ Activated Water™, this hydrating and protecting spray replenishes lost moisture and revives the look of skin over or under makeup throughout the day.

Who it's for: All skin types that regularly spend time around smart phones, computers or artificial lighting.

How to use it: Mist liberally on face and neck every two hours while indoors.

Available Sizes: Retail Size 3.4 FL OZ (100 mL)

Key Formulated Ingredients:

| | | |
|----------------------------------|-----------------------|--|
| ENERGINIUS™ | Blue Light Protection | Somnifera Root Extract protects skin cells from screen-emitted artificial visible light. Strongly reinforced, the skin is visibly revived and the signs of fatigue disappear in favor of a healthy glow. |
| Hydro18™ Activated Water™ | “Water Shot” | Patented oleic acid formulation creates “smart” water shown to increase skin hydration and improve skin’s retention of water. |
| Pollustop® | Pollution Protection | Builds a protective barrier against atmospheric pollution, UVs, and domestic pollution. |
| Allantoin | Anti-Irritant | Derived from comfrey root, improves skin’s moisture retention while delivering a soothing and smoothing effect. |
