

Zovil
PERFECTION Anti-Wrinkle Serum
0.5oz | 15ml

ABOUT THIS PRODUCT

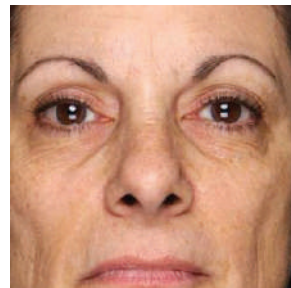

Hyaluronic acid is essential for plump, hydrated skin as it has the ability to hold up to 1000x its weight in water. With age, our natural levels deplete, resulting in the appearance of fine lines and wrinkles.

Zovil is a serum that reinforces the skin's hyaluronic acid capital with 3 pure molecular weights of HA, helping to preserve the skin's moisture and barrier functions. Skin is deeply hydrated and the appearance of lines and wrinkles are softened.

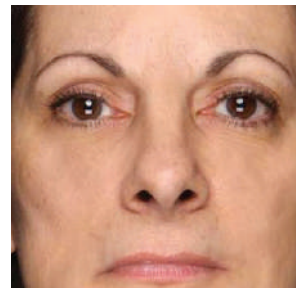

Long lasting hydration is provided and skin appears softer, firmer and healthier looking.

BENEFITS:

- Stimulates the skin's natural ability to produce hyaluronic acid
- Lightweight, non-greasy texture that absorbs rapidly for optimal results
- Ideal for mature, prematurely aged, stressed or very dehydrated skins
- Can also be used pre and post aesthetic procedures

Before

After

DIRECTIONS FOR USE:

Gently apply to thoroughly cleansed skin. May be used AM & PM. Follow with appropriate moisturizer. If required, the serum can also be applied on a morning, but wait for the product to fully absorb before applying make up.

KEY INGREDIENTS

ACTION

Hyaluronactiv Complex

- High molecular weight for instantly softening the skin, hydrate skin at the surface
- Low and Super low molecular weight : simultaneously promoting the creation of collagen and elastin
- Combatting age-related skin changes, especially fine lines and wrinkles
- Stimulator of Hyaluronic acid
- Reeducates the skin for re-producing its natural hyaluronic acid
- An anti-hyaluronidase action to protect the hyaluronic acid capital of the skin

Oxycontrol Complex

- Patented complex: resveratrol/licorice/helichrysum
- Smooth both skin tone and texture
- Reduces the appearance of fine lines
- Controls the oxidative stress
- Reduces the appearance of age spots
- Protects cell's DNA from damage that is caused by free radicals
- Stimulates healthy cell proliferation

Frequently Asked Questions:

1. What is the effect of Hyaluronic Acid Serum?

- Plumps and hydrates dry and dull skin
- Assists in balancing skin moisture levels
- Fights against with free radicals, anti-aging
- Diminishes surface lines and wrinkles by stimulating collagen
- Naturally lifting and firming sagging skin

2. What is the percentage of Hyaluronic Acid in your serum?

Our serum is formulated with 100% pure hyaluronic acid at the industry standard concentration of 1%. At this 1% concentration, HA is the most effective in penetrating skins surface to deeply hydrate. Any higher and it would simply sit on top of the skin like a gel, ineffective and unable to maximize its qualities.

3. Is it suitable for sensitive skin?

Zovil is suitable for all skin types. Product formula is natural and mild. Our formulas have been created with sensitivity in mind using gentle and soothing active ingredients.

4. How are these serums able to penetrate deeper below the surface than other skin care products?

Serums are molecularly structured to penetrate deep into the pores and layers of the skin, which is why they've become such an important part of the skincare regime.

5. Can I use your products with a Micro-needle system?

Yes, Zovil works well paired with Micro-needling. We have received many customer comments regarding the added benefits and effectiveness.
